12. I have read/reviewed the Douglas Zoning Ordinance in regard to the Zoning Board of Appeals (Chapter 29) and the requirements for a Variance, and hereby give the Zoning Board of Appeals permission to examine the property in question.

In order for the Zoning Board of Appeals to grant a variance a “practical difficulty” must exist. The “practical difficulty” must not be self created, must not be economic, and must not adversely affect the neighborhood. If you are requesting a non-use variance please answer the following 5 questions in order to verify the conditions for a variance exist.

Question 1 – Zoning Ordinance Section 29.05 a)

Please list the practical difficulties which prevent carrying out the strict letter of the Ordinance. These practical difficulties shall not be deemed economic, but shall be evaluated in terms of the use of a particular parcel of land.

Question 2 – Zoning Ordinance Section 29.05 b)

Please list the genuine practical difficulty that exists because of unique circumstances or physical conditions such as narrowness, shallowness, shape, or topography of the property involved that do not generally apply to other property or uses in the same zoning district.

Question 3 – Zoning Ordinance Section 29.05 c)

Please verify that the practical difficulty or special conditions or circumstances do not result from actions of the applicant.

Question 4 – Zoning Ordinance Section 29.05 e)

Please verify that the variance will be in harmony with the general purpose and intent of this Ordinance and will not cause a substantial adverse effect upon surrounding property, property values, and the use and enjoyment of property in the neighborhood.

Question 5 – Zoning Ordinance Section 29.05 g)

Please verify that the variance requested is the minimum amount necessary to overcome the inequality inherent in the particular property or to mitigate the hardship.
