

ORDINANCE NO. 111-D
CITY OF THE VILLAGE OF DOUGLAS SIGN ORDINANCE
SECTION 1.0 INTENT AND PURPOSE:

The Village of Douglas finds that signs and outdoor advertising are necessary to the commerce, health, safety, and general welfare of the public. Further it finds that failure to regulate the size, height, number, location and construction of signs within the Village of Douglas may lead to poor identification of individual businesses, deterioration of the appearance of the Village, a decline in property values, and may create safety hazards to the public. The purpose of this Ordinance is to regulate signs and outdoor advertising in a manner which will minimize their harmful effects while permitting effective advertising and identification. It is further intended through the provisions contained herein to:

1. Give recognition to the legitimate needs of business, industry and other activities, in attaining their identification and informational objectives.
2. Reflect the primary purpose of signage as being the identification of a particular user or use on a property, but not necessarily every activity or service performed hereon.
3. Promote signs that are visible at eye level and can be readily seen from moving vehicles with the least amount of eye distraction.
4. Avoid excessive property and use signing in order to give each use optimum visibility to passer-by traffic and if possible, to prevent one sign from blocking the view of another sign.
5. Place and size signs in such a way that scenic views are respected and visual obstructions to the natural landscape are minimized.
6. Protect the character of the Village by encouraging the design of institutional, business, and industrial signs that reflect the Village's favorable environment as a permanent and seasonal home community.
7. Maintain and enhance economic stability by retaining aesthetic appeal to tourists and visitors, and encouraging sign design practices that will complement the Village's character and natural environment.
