What’s Wrong Here?

America’s Wealthiest County
In 3 seconds at 30 mph a motorist travels 10-12 feet.

In 6 seconds at 30 mph a motorist travels 132 feet.

In 22 seconds at 30 mph a motorist travels 968 feet.

If the Beatles would have tried to cross this road, rather than Abby Road, would we have been able to hear their music?
Reframing Key Transportation Conventions
DESIGN TRAFFIC - Interpreting the Results

Capacity of Streets
Better left-turn sight distance

Four-Lane Undivided
(Outside Lane Traffic Hidden)

Three-Lane
(No Outside Lane Traffic to Hide)
